

FLIPSIDE FILM FESTIVAL 2008: CALL FOR FILM ENTRIES.

WE WANT YOUR FILMS!!

FLIPSIDE TURNS THE WORLD ON ITS HEAD AND SHOVES A CAMERA IN ITS FACE!

Running from May 21st - 31st 2008, in Plymouth, UK, The Flipside Film Festival will showcase both feature-length and short films and is intended as a filmic celebration and exploration of alternate, unorthodox and under-represented views of our world.

'Open Call' film entries can be of any genre or film-making style, although should explore / embrace one or more of the following thematic areas:

1/ THE VIEW FROM HERE: Films which provide the viewer with the opportunity to literally 'see' our world from different and unfamiliar visual perspectives, achieved by manipulating 'the real' with various alchemic cinematic techniques & technological trickery!

2/ VIEW POINT: Films which celebrate non-mainstream / non-traditional and minority viewpoints and experiences of our world (especially political / spiritual / ideological viewpoints and experiences that are under-represented by mainstream broadcast media): A thematic celebration of the diversity of experience in our world and a challenge to the institutional shortcomings of 'broad' cast media.

3/ 4:3 REVIEW: Films which creatively embrace 'endangered' media practices, processes and technologies, featuring everything in the 4:3 aspect ratio, from Super8, Standard 8, & Standard 16mm film, to analogue video. This is the thematic antidote to HDTV, where the focus is the celebration and exploration of the gloriously rarefied, rather than the aggressive product-profit driven 'technical redundancy & replacement' industry model!

The festival will culminate with a keynote screening and panel discussion event in which the works of pioneering film artist Don Letts will be explored and celebrated, with insight and comment from the man himself who will be joining the festivities!

To enter your own films please either contact Dan P at the following email address or visit our website for an application form:

flipside-festival@blueyonder.co.uk

http://www.flipside.co.nr

Entries can be accepted in the following formats:

VHS / miniDV / DVcam / HDV / DVD-video (Region 2 or Region 0) / standard 8mm/ super8 / standard 16mm / super16. Other media formats can be accommodated by special arrangement.

*We are particularly interested in receiving super8 originated entries for the 2008 festival and all entries in this film gauge will be screened as part of the festival.
